MODEL 4546
(Cat. No. 304546)

LineSelect® Model 4546 Quad Channel Phoenix Connector A/B Switch, Rackmount, Manual Operation.

INTRODUCTION

The *LineSelect®* Model 4546 Quad Channel Phoenix Connector A/B Switch enables access to two devices per each of its four channels. All ports of channels one and two utilize 12-Pin Phoenix connectors. All ports of channels three and four utilize 10-Pin Phoenix connectors. All four channels switch simultaneously.

FEATURES:

- Each of the four channels allows quick connection to any one of two devices from one COMMON device.
- Manual operation via front-panel rotary switch.
- Simultaneously switches all four channels.
- All pins of the Phoenix interface are switched.
- High quality sealed switch with self-wiping low impedance contacts.
- Transparent to data speed and format.
- Improves network efficiency by allowing sharing of peripherals.
- Eliminates the need to plug and unplug cables.
- No external power required.
- Attractive anodized black box packaging provides EMI/RFI shielding.
- Custom Length Phoenix cables available for your installation.
- Lifetime guarantee against manufacturing defects.
