

LineSelect® Model 9442R DB9 A/B Switch with Half Rack & Full Rackmount Enclosure, RoHS Compliant

- *Applicable to ANY DB9 Interface since all 9 pins switched.*
- *High Quality Manual Data Network Switches increase the reliability of your Network.*

INTRODUCTION

The **LineSelect® Model 9442R Single Channel DB9 A/B Switch** allows the user to switch COMMON equipment to either **A** or **B** ports with a simple turn of a rotary switch knob. The unit supports all 9 pins of the DB9 interface. No need to plug and unplug cables, thereby eliminating connector wear. The **LineSelect® Model 9442R** is enclosed in a desktop size enclosure with a 1U full rack size front panel, and an all metal black chassis designed to provide EMI/RFI shielding and fit in a standard 19" rack.

FEATURES:

- *Allows quick connection to either Network A or Network B from one COMMON device.*
- *Certified RoHS compliant.*
- High quality sealed switch with self-wiping low impedance contacts.
- All ports are transparent to all data.
- All 9 pins of the DB9 interface are switched via break-before make rotary switch.
- *DB9 female connectors used for the A, B, & COMMON ports.*
- Manually operated. No power required.
- Attractive all metal black box packaging provides EMI/RFI shielding.
- Lifetime warranty against manufacturing defects.
- Custom length DB9 cables available for your switch installation.
